Cia zaub mov kom txias

- Cov zaub mov uas siav lawm cia kom txias:
 - 135° F mus rau 70° F li ntawm 2 xaub moos
- THIAB
 - 135° F mus rau 41° F los sis qis dua li ntawm sij hawm 6 xaub moos
 - Cov zaub mov yim txias sai ces yim zoo dua.

English

Temperature danger zone

The temperature range at which disease-causing bacteria grow best in time/temperature control for safety food (TCS) is called the temperature danger zone.

- Temperature danger zone is between 41°F and 135°F.
- TCS food must pass through the temperature danger zone as quickly as possible.
- Keep hot food hot and cold food cold. Always use a thermometer to check food temperatures.

Cooling food

- Cool hot food from:
 - 135°F to 70°F within two hours
