FPHR Community of Practice 9.11.24

Access and Linkages to Care

Linda Kopecky | System Transformation Planner

This Space

A community of practice is a group of people who share a concern or a passion for something they do and learn how to do it better as they interact regularly.

This space is for...

- Informal conversations
- Increasing general knowledge
- Sharing ideas and challenges
- Wrestling with specific issues
- Bringing in subject matter experts
- Celebrating differences

This space is NOT for...

- Making decisions
- Judgements based on experience, geography, perspective, or other
- Specific questions about funding streams
- Excluding people or ideas

w e l c o m e

*Share your name, location, and your role in your agency
(how are you connected to everyone else?)*

Pick a responsibility (prior to the meeting) and identify issues to discuss and/or SMEs to invite

The flow of our Community of Practice meetings

Identifying takeaways for meeting notes and picking the next topic

Review the basics of the responsibility from the framework and PHAB summary document

Unpacking! Conversations about the responsibility using a variety of engagement tools

Sharing and summarizing conversations, making connections, identifying areas for future learning or discussion

E Q U I T Y

Access & Linkages to Care

Provide timely, accurate, relevant information related to access and linkage to clinical care

Inspect and license healthcare facilities; license, monitor, and discipline healthcare providers

Collaboratively identify healthcare partners and competencies, developing prioritized plans, seek funding

Access & Linkages to Care

Provide timely, accurate, relevant information related to access and linkage to clinical care

- Develop, maintain, and share internal electronic information systems and access external information systems
- Educate the partners, communities, and individuals on barriers in accessing clinical care; provide education and technical assistance to healthcare and clinical care providers
- Assess the impact of external factors and conditions that affect clinical care cost
- Assess the quality and effectiveness of clinical care services to the population to guide planning and decision-making
- Assess the impact of external factors and conditions that affect clinical care quality and effectiveness
- Establish metrics and monitor clinical care quality, effectiveness, and outcomes

Access & Linkages to Care

Inspect and license healthcare facilities; license, monitor, and discipline healthcare providers

- Monitor clinical care facilities and providers based on state and federal laws and rules
- Review clinical care providers' qualifications and issue credentials including licenses
- Conduct physical plant plan reviews and onsite construction inspections
- Conduct on-site health care surveys
- Conduct billing audits for nursing homes
- Investigate complaints
- As necessary, take enforcement actions

Access & Linkages to Care

Collaboratively identify healthcare partners and competencies, developing prioritized plans, seek funding

- Monitor barriers in accessing clinical care for the population and within the jurisdiction
- Assess the need for, and the factors and conditions that affect, improved access to clinical care services in the community
- Collaborate with and convene partners, communities, and individuals to co-create strategies for improving access to clinical care services
- Convene cross-sector partners to identify strategies or initiatives for clinical care providers
- Collaborate with partners, communities, and individuals to understand the quality and effectiveness of clinical care services and the community context related to facilities being inspected/licensed
- Convene public health partners, communities, and individuals, to improve a clinical care facility or providers quality of service
