See reverse for public health system consultant regional assignments and contact information.

# Public Health System Consultants

EFFECTIVE JULY 2024

**What are public health system consultants?** Public health system consultants, members of the MDH Center for Public Health Practice, offer consultation and technical assistance in a defined geographic area for the purpose of promoting and maintaining a strong public health infrastructure. This is accomplished through supportive relationships with local public health, communication, problem solving, training, program development and advocacy.

For more information, visit: [Who is my public health system consultant?](#)
