Definitions

Unless the context indicates otherwise, the following words and phrases shall have the meanings provided below:

“340B Covered Entity” or **“Covered Entity”** is a covered entity as defined in United States Code, title 42, section 256b(a)(4), with a service address in Minnesota as of January 1 of the reporting year. 340B covered entity includes all entity types and grantees. All facilities that are identified as child sites or grantee associated sites under the federal 340B Drug Pricing Program are considered part of the 340B covered entity.

“340B Drug Pricing Program” or **“340B Program”** is the drug discount program established under United States Code, title 42, section 256b.

“340B Entity Type” is the designation of the 340B covered entity according to the entity types specified in United States Code, title 42, section 256b(a)(4).

“340B ID” is a unique identification number provided by HRSA to identify a 340B-eligible entity in 340B OPAIS.

“Associated Site” is a site that shares a grant number or designation number with a Covered Entity on HRSA’s 340B OPAIS.

“Child Site” is an off-site, outpatient facility that is eligible to participate in the 340B program and designated as such on HRSA’s 340B OPAIS.

“National Drug Code” or **“NDC”** means the three-segment code maintained by the federal Food and Drug Administration that includes a labeler code, a product code, and a package code for a drug product; and that has been converted to an 11-digit format consisting of five digits in the first segment, four digits in the second segment, and two digits in the third segment. A three-segment code shall be considered converted to an 11-digit format when, as necessary, at least one “0” has been added to the front of each segment containing less than the specified number of digits such that each segment contains the specified number of digits.

“Pricing Unit” means the smallest dispensable amount of a prescription drug product that can be dispensed or administered.

By April 1 of each year, a Covered Entity must annually submit to MDH timely, accurate, and complete 340B data or data sets in accordance with the requirements under Minnesota Statutes. Covered Entities must certify the accuracy and completeness of any submissions to MDH, including those made by corporate entities, their subsidiaries, and contractors or other third parties engaged to submit information on the Covered Entity's behalf. Covered Entities may also submit additional information necessary to support the submissions required under this reporting requirement.

Values submitted for the items listed below must be aggregated to include data for the Covered Entity and all Child Sites, Associated Sites, Contract Pharmacies, third-party administrators, and outpatient facilities physically located within the Covered Entity.

For Covered Entities that are hospitals, data must also be reported for items (1), (5), and (6) listed below for each of the 50 Most Frequently Dispensed or Administered Drugs/NDCs under the 340B Program.

The data submission must include the following information:

Classification of Data

Data submitted to the commissioner is classified as nonpublic data as defined in Minnesota Statutes, section 13.02, subdivision 9 (<https://www.revisor.mn.gov/statutes/cite/13.02>).

Method of Submission

Data required under Minnesota Statutes must be submitted to MDH using the Rx Data Portal (<https://rxpt.health.mn.gov>) by entering each required data field directly into the data portal.

Data that is required to be reported by payer type and/or NDC may also be submitted by uploading an MDH-provided Excel (.xlsx) template that includes all required information in the format specified in Appendices B - D, as applicable. Blank templates are available to download from the data portal.

Supporting materials are available to assist users to navigate the data portal and are posted on the [Minnesota 340B Drug Pricing Program Reporting website](https://www.health.state.mn.us/data/340b/index.html) (<https://www.health.state.mn.us/data/340b/index.html>) and the Rx Data Portal Help page (<https://www.health.state.mn.us/data/rxtransparency/help.html>).

Compliance Enforcement

Minnesota statutes specify that MDH may impose a fine upon a Covered Entity for failure to provide data. Any Covered Entity subject to reporting under this section that fails to provide data in the form and manner prescribed by the commissioner – and has not been granted an extension to or exemption from reporting – is subject to a fine paid to the commissioner of up to \$500 for each day the data are past due.

As specified in statute, the commissioner may grant an extension of the reporting deadlines or exemption from reporting upon a showing of good cause by the entity. Any fine levied against the entity under this subdivision is subject to the contested case and judicial review provisions of Minnesota Statutes, sections 14.57 (<https://www.revisor.mn.gov/statutes/cite/14.57>) through 14.69 (<https://www.revisor.mn.gov/statutes/cite/14.69>).

Extension and Exemption Requests

The commissioner may grant an extension of the reporting deadlines or exemption from reporting upon a demonstration of good cause by the Covered Entity. Covered Entities must request an extension or exemption within the data submission portal and provide any supporting documentation that addresses its good-cause-bases.

MDH strongly recommends Covered Entities submit extension and exemption requests at least 20 calendar days in advance of the reporting deadline to be considered.

Supporting materials are available to assist users to navigate the data submission portal and are posted on the [Minnesota 340B Drug Pricing Program Reporting website \(https://www.health.state.mn.us/data/340b/index.html\)](https://www.health.state.mn.us/data/340b/index.html).
