

Safer Social Activities

Choose safer activities to help prevent the spread of COVID-19. Consider the following public health recommendations when celebrating holidays and gathering with others.

If you are fully vaccinated, all activities are lower risk for getting and spreading COVID-19. If you are not fully vaccinated, take steps to lower your risk by:

- Getting vaccinated
- Staying 6 feet away from others
- Wearing a mask
- Gathering outdoors
- Avoiding crowds

Consider the risk

Less risk

- Hosting a virtual dinner or game night
- Getting together indoors with vaccinated friends or family
- Meeting friends in the park

More risk

- Visiting indoors with vaccinated and unvaccinated friends
- Going to see a movie or visiting a museum
- Dining on a restaurant patio with unvaccinated friends

Higher risk

- Going to a crowded indoor bar or restaurant
- Attending a crowded outdoor concert or other large event
- Traveling internationally
